ABOUT THE SITE

The sports ground was completed in 1994 and included a pavilion building, an athletics track and an all-weather pitch. Permission for a second pitch was in place, but it was not constructed.

In 2008 permission was granted for floodlighting to the athletics track and both all-weather pitches. Consent for the second pitch and floodlighting remains valid.

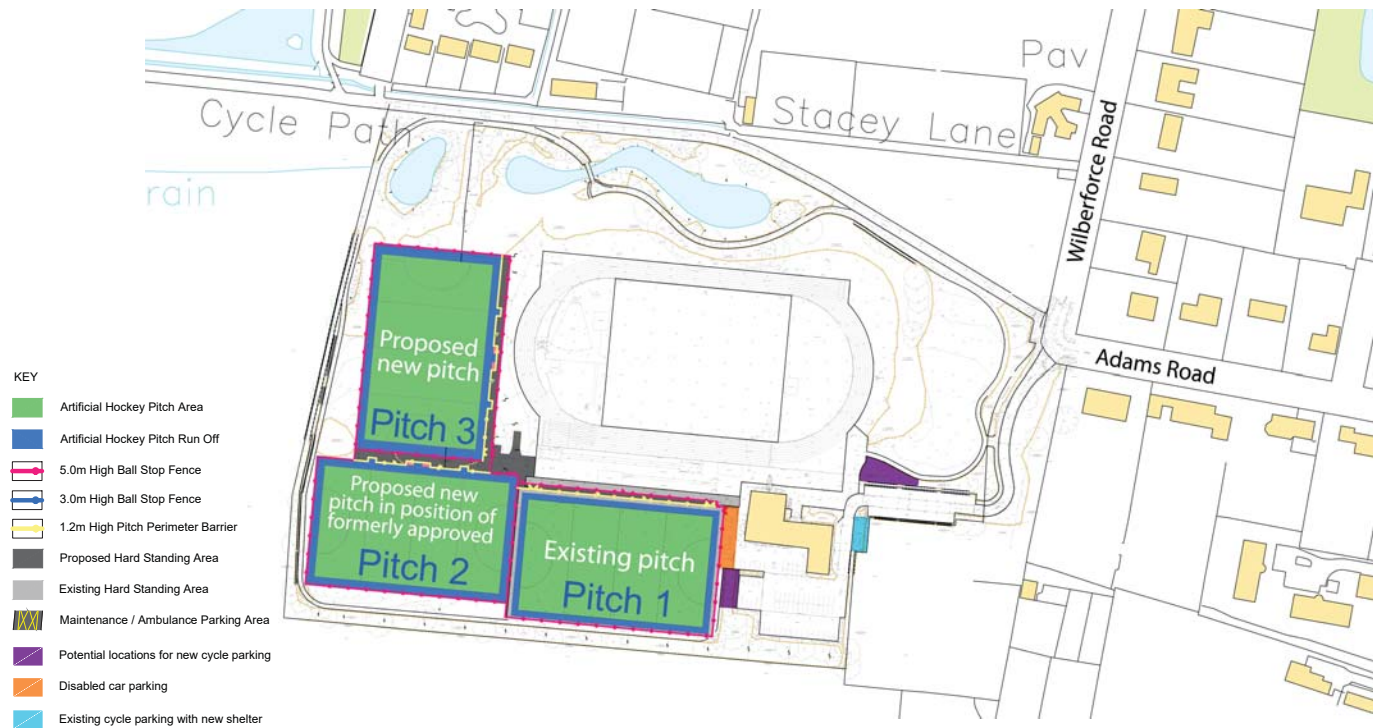

Now, following the recent adoption of the City Council and South Cambridgeshire Sports Facility Strategy, planning permission is sought for two all-weather pitches and associated

floodlighting. One is in the position of the previously approved second pitch (known as pitch 2) and a third pitch (known as pitch 3) in the position shown below. Small changes to pitch 2 have necessitated the need to re-apply for planning permission.

The proposals will improve the existing facilities on site, providing training and competition pitches for a range of users. These include local clubs such as Cambridge City Hockey Club and other community users, together with the University Hockey Club.

No changes are proposed to the existing athletics track or its floodlighting as part of the proposed application.

If you are unable to attend the consultation on Tuesday 24 January 2017 but would like to make some comments, please use this Freepost form.
